

BEST SOUNDBAR

Q Acoustics Media 4

Q ACOUSTICS' ARRIVAL into the soundbar market with the beautifully-constructed Media 4 was worth waiting for. This mid-range model delivers an instantaneous upgrade on a typical TV's speaker system, and outshines the competition thanks to an excellent out-of-the box audio performance that buyers will be smitten by. Employing dual 2.75in BMR drivers

pays dividends with stereo imaging and the size of the soundfield, while an onboard down-firing woofer underpins the mid-range with taut, nuanced bass. AptX Bluetooth, 3.5mm input and stereo phono connections allow music fans to sample its delights, too.

PRODUCT DETAILS

TYPE 2.1-channel soundbar

PRICE £400

WEIGHT 4.9kg

DIMENSIONS (WxHxD)
1000 x 90 x 142mm
