

Specification Data Sheet

Rev 1.0 September 2014

Armour Home Electronics R&D Department

The S7 KPS-3 keypad is a very cost effective in-wall keypad which controls an S7 sub zone. This is specifically set up for a zone to listen to the same music source as a main zone such as a kitchen / dining area. The keypad only has three buttons; on/off and volume up/down. It fits into a standard UK single 35mm back box and can be inserted into a 50x50mm Euro data fascia plate. The keypad requires a single Cat5/6 cable connected to the keypad socket on the NetAmp, the keypad having punch down connectors.

Connectivity		
Cat5/6	Punch down, four conductors	Brown & blue for power Green pair for RS485 data 100m max distance from NetAmp

Installation
