

Specification Data Sheet

Rev 1.0

Armour Home Electronics R&D Department

The S7 Mini NetServer supports up to 4 connected NetAmp zones and 160GB hard drive for operating system and stored music. It is very compact and cost effective for smaller S7 installations. The server will come pre-loaded with S7 server software and all recommended plugins such as BBC iPlayer, Qobuz, Deezer, Auto-rescan and song lyrics and others. The Mini NetServer has two USB2.0 sockets which is compatible with the 10 Port USB Hub (SN8021) to allow 4 NetAmp zones to be connected.
